Republican Plurality 50,000—Largest Ever Given!

AND NEXT DAY IT RAINED!

Welcome!
Thrice welcome!
Welcome to our distinguished visitor, the Hon. William Jennings Bryan, candidate for President of the United States, whose advent into Maysville this evening will mark an important era in the city's history;

Welcome to the thousands of strangers who will today for the first time set foot within our gates.
Thrice welcome the glorious news that is borne on the tidal wave that rolls down from Maine!

The Battle is on!
The Picket firing began in Vermont. The enemy declared the issue doubtful. And indeed it was "doubtful" for several days whether the Republican majority would step at 39,000 or whether it would be unanimous.

Then came the Skirmish in Arkansas, and the roosters crowed themselves hoarse over a "victory" that "broke all previous records," but they've now discovered that their plurality in that Democratic stronghold is over 5,000 less than it was four years ago!

And yesterday the Artillery was swung into line and unlimbered in Maine—the shrill-voiced Parrots and the loud-mouthed Napoleons—and when the hall of shrapnel and canister ceased at nightfall the field was littered with the mangled remains of Bryan's misguided followers. The Infantry is now moving forward, and when the general engagement takes place on the 3d of November Bryanism will be annihilated.

BRYAN AT CHICAGO.

WHAT AN EX-MAYSVILLIAN SAYS OF HIS CROWD THERE.

THE LEDGER is permitted to print the following extract from a private letter written by a former Maysville man to his father in this city:

CHICAGO, September 12th, 1896.
* * * Bryan started out from Lincoln, Neb., last night for a speech-making tour through the South and East.
If he does not have any more genuine enthusiasm than he met with here on his last trip, I think he will be greatly disappointed.

Last Monday was Chicago's Annual Labor Day. More than 50,000 laborers, members of Labor Unions, were out on their holiday. Mr. Bryan was billed to speak at Sharpshooters' Park. I had never seen him, and actuated also by a desire to see the great numbers of people who would rush hither to hear the "Boy Orator of the Platte," I went up there. He had been talking some ten minutes before I arrived. I immediately went around behind the building that he was speaking from, being a large stand with roof and three sides, a platform extending out from the front. I expected to see 50,000 yelling people; instead, when I got on the platform, within ten feet of him, I saw the exact size of the crowd, and I do not believe there were as many as 5,000 who were in front listening to him, and 20 per cent. of them were women. The rest were not all in sympathy with him, for after he was through I heard many expressions of men who were bitter in their denunciation of him for taking that opportunity, when he was a candidate, to make a speech. He certainly had far from a large demonstration.

The papers next day spoke of the "throngs" that heard him, when not one of the persons who wrote the headlines in the papers knew where Sharpshooters' Park was. They took it for granted a large crowd was there and wrote it up accordingly. 'Tis true, 5,000 is a large crowd; but considering the circumstances, Labor Day and the great advertisement he had that he would speak, and a very beautiful day, I know Mr. Bryan was sorely disappointed.

I am now convinced beyond doubt that with all his demagoguery and lying, seeking to divide the classes in this country by arraigning the rich against the poor, the laborer against the employer, that he will not get the vote of Illinois.

He certainly is the champion destroyer of public confidence. There is not a day that passes over my head that I do not hear lots of Democrats say that they will vote for McKinley. Down with Bryan.

When any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they knock the whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper function. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisonous matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cures constipation and its attendant evils. Send 21 cents in one-cent stamps to Dr. J. C. Pierce, Buffalo, N. Y., for his "Medicine Adviser." It is a book of 200 pages, profusely illustrated.
